SUMMARY

Final-year Computer Science student with hands-on experience building AI-powered systems using LLMs, OpenAI APIs, and scalable backend architectures. Proficient in Python, scikit-learn, FastAPI, and distributed systems. Experienced in the full ML development lifecycle — from data preprocessing and feature engineering to model deployment. Winner of multiple national hackathons. Seeking a Machine Learning Engineer Internship to contribute to real-world ML solutions in a collaborative, agile environment.

EDUCATION

St. Vincent Pallotti College of Engineering

Bachelor of Technology in Computer Science and Business Systems

Nagpur, India

Expected May 2026

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

ML / AI: Machine Learning, Deep Learning Fundamentals, scikit-learn, Pandas, NumPy, OpenAI APIs, LLM Integration, Prompt Engineering, API-based LLM Applications

Frameworks & Tools: FastAPI, Node.js, React, Docker, Kafka, OpenVINO, AWS, Git, Linux, CI/CD

Core Concepts: Data Structures & Algorithms, Distributed Systems, OOP, Agile/Scrum, SDLC, REST APIs, Microservices

Coursework: Artificial Intelligence, Machine Learning Fundamentals, Deep Learning Concepts, Database Management, Cloud Computing, System Design

PROJECTS

NEXUS Ray — AI Agent Orchestration Framework | *Python, Kafka, OpenVINO, OpenAI APIs* 2025

- Built an event-driven AI orchestration framework for distributed intelligent workflows, demonstrating end-to-end ML system design.
- Developed scalable Python microservices for AI inference and workflow automation, following clean, maintainable code practices.
- Optimized AI inference latency using **OpenVINO INT8 quantization**, reducing model execution time for production deployments.
- Integrated OpenAI APIs with custom prompt engineering for intelligent automation and contextual AI response generation.

InterviewMaster — AI Interview Coaching Platform | *Python, FastAPI, React, OpenAI APIs* 2025

- Designed and built an AI-powered coaching platform with real-time feedback loops and dynamic LLM-driven question generation.
- Implemented **prompt engineering pipelines** to simulate diverse interview scenarios across domains.
- Built low-latency backend APIs using FastAPI supporting concurrent AI sessions, validating model outputs for accuracy.
- Applied the full ML product lifecycle: requirement analysis, model integration, testing, and iterative evaluation.

AI Dementia Assistant | *Python, OpenAI APIs, FastAPI* 2024

- Developed a human-centered AI assistant for dementia patients leveraging **conversational LLM workflows** for cognitive support and caregiver interaction.
- Engineered scalable REST APIs enabling real-time AI responses with a focus on accessibility and reliability.
- Applied responsible AI design principles to ensure safe, personalized, and context-aware interactions for elderly users.

EXPERIENCE

Technical Intern

Maharashtra Remote Sensing Application Centre (MRSAC)

Jan 2026 – May 2026

Nagpur, India (Remote)

- Contributed to technical workflows and engineering documentation in a professional software environment.
- Collaborated cross-functionally using structured software engineering, reporting practices, and Agile methodologies.
- Deepened applied knowledge of cloud computing, operating systems, and software development workflows.

ACHIEVEMENTS

Winner — NASA International Space Apps Challenge, Ramdeobaba College of Engineering, Nagpur: Led AI-driven rapid prototyping addressing real-world space and sustainability challenges.

1st Prize — AIxplore Hackathon, Tulsiramji Gaikwad Patil College of Engineering, Nagpur: Built intelligent automation solutions with scalable ML architecture, securing first place among all competing teams.

Runner-Up — VOIS Innovation Marathon, Pune (National): Developed AI-integrated technology solutions emphasizing scalable system design and collaborative product development.

TechSaksham Regional Showcase Award — Zeal College of Engineering, Pune: Recognized for innovative AI and technology-driven project development by industry mentors and technical experts.
